

Sree Balaji Medical College hosts e-conference on ‘Implications of Anatomy in Forensic Science’

Chennai, July 15: Sree Balaji Medical College & Hospital is organising a national e-conference on Anatomy and implications of anatomy in forensic science (FofAnSync) on July 16 and 17.

The conference, to be co-hosted by the Department of Forensics, will focus on the study of the Covid period.

Sree Balaji Medical College & Hospital is a constituent college of Bharath Institute of Higher Education and Research. It has been accredited by National Assessment and Accreditation Council

(NAAC). Institution aims at high academic standards & delivering quality health care.

Talking about the conference, Dr. WMS Johnson, Dean, Sri Balaji Medical College said, “ForAnSync - 2021, the Conference aims to discuss the implications of anatomy in forensic

science and the need for collaboration. Anatomical sciences are important in medical, forensic education and investigations.

Areas of anatomical sciences which are important in forensic education and investigations will be highlighted and discussed by renowned speakers and experts in the field from within the state and outside the state.

The conference will provide a premier interdisciplinary platform for researchers, practitioners, and educators to present and discuss the most recent innovations, trends in the field of forensic science. The conference will high light the practical challenges encountered and solutions adopted in the field of Criminal Investigation and Forensic Science.

C o n f e r e n c e arrangements are being made by Dr. Ganesan Murugapperumal, Head, Department of Anatomy.

Medical students and medical researchers have the opportunity to learn about corona term research through this online conference. So far thousands of students and medical researchers have pre-registered to attend the conference.

Dr. Deepti Shastri, Principal, Salem Vinayaka Mission Kripananda Warrior Medical College is presiding over this

special web conference,” said Dr. WMS Johnson, Dean, Sri Balaji Medical College.

D r . G a n e s a n Murugapperumal, who is organizing the conference, said, “This is an online conference where the Department of Anatomy and the Department of Forensics can work together. Determining the age of the deceased through microscopic notes including its organizational function .An annual seminar on how to process and bury the dead is being conducted. In the last two years we have been discovering new discoveries through the bodies of the dead in the corona environment. The field of forensic science, like the field of anatomy, is discovering new discoveries with each other. This webinar will pave the way for the submission of new inventions.

The first day of the conference will be held on July 16 at the event where senior forensic professor Dr. R.S. Selvakumar, Dr. P. Sampath Kumar, Vice President, Forensic Science Officer, A. Jeevanathan SRM University are participating. The second day of July 17 will be attended by Dr. K. Sri Nivasalu, Professor of Forensics, Andhra Pradesh. Dr. SV Panindra, Professor, Government Medical College, Villupuram.

On the eve of 119th birth anniversary of former CM Kamaraj, V.G. Santhosham paid his respects to the statue of the departed leader.
