

CME PROGRAMME" ON NANOBIOSENSORS

Department of Physiology & Medical Education Unit Organized "CME PROGRAMME" ON NANOBIOSENSORS - BASED ON-SITE BIOMARKER'S DETECTION on 07 10 2015. Speaker: Dr. MURUGAN VEERAPANDIAN, Ph.D., Research Associate, Bio Nand Lab, School Of Engineering University Of Guelph Canada. Nanosensors are nanoscale devices

that measure physical quantities and convert these to signals that can be detected and analyzed. There are several ways proposed today to make nanosensors; these include top-down lithography, bottom-up assembly, and molecular self-assembly. There are different types of nanosensors in the market and in development for various applications, most notably in defense, environmental, and healthcare industries. These sensors share the same basic workflow: a selective binding of an analyte, signal generation from the interaction of the nanosensor with the bio-element, and processing of the signal into useful metrics.

CME ON THE JOURNEY OF ANATOMY

Department of Anatomy & Medical Education Unit Organized a CME on The Journey of Anatomy from Primitive on 09th Oct, 2015 present Guest Lecture Dr. D. Ravichandran Prof, of Anatomy Karpagam Institute of Medical Sciences & Research, Coimbatore.

CME ON "NEPHROTOXIC DRUGS"

Department of Pharmacology & Medical Education Unit Cordially invite you for the CME PROGRAMME ON "NEPHROTOXIC DRUGS" on 16.10.2022. Speakers: Prof. Ruckmani, M.D. Prof & HOD of Pharmacology Chettinad Medical College and Research Institute "MANAGEMENT OF DRUG INDUCED NEPHROPATHY" -Prof. Sivakumar, M.D.DM

Consultant Nephrologist. Nephrotoxicity is defining as rapid deterioration in the kidney function due to toxic effect of medications and chemicals. There are various forms, and some drugs may affect renal function in more than one way. Nephrotoxins are substances displaying nephrotoxicity.

CME PROGRAMME" ON THYROID GLAND LESIONS"

Department of Pathology Medical Education Unit organized a "CME PROGRAMME" ON THYROID GLAND LESIONS" on 16.10. 2015. Thyroid nodules are solid or fluid-filled lumps that form within your thyroid, a small gland located at the base of your neck, just above your breastbone. Most thyroid nodules aren't serious and don't cause symptoms. Only a small percentage of thyroid nodules are cancerous.

CME PROGRAMME" ON MEDICAL NEGLIGENCE

Department of Forensic Medicine and Medical Education Unit organized a "CME PROGRAMME" on 26.10.2015. Medical malpractice is a legal cause of action that occurs when a medical or health care professional, through a negligent act or omission, deviates

from standards in their profession, thereby causing injury to a patient. The negligence might arise from errors in diagnosis, treatment, after care or health management.

INTERNATIONAL PSORIASIS CONFERENCE

Department of DVL and INTERNATIONAL PSORIASIS CONFERENCE Indian

Association of Dermatologists Venereologists and Leprologists, Chennai Partnered by Indian

Society of Teledermatology organized a INTERNATIONAL PSORIASIS

CONFERENCE on 29 & 30 October 2015. Prof.

Dr. V. CHOCKALINGAM MD, DM (Cardiology), FACC (USA) D.Sc Prof.

Emeritus. Cardiology, TN. Dr. MGR Medical University, Chennai. Psoriasis is a skin disease that causes a rash with itchy, scaly patches, most commonly on the knees, elbows, trunk and scalp. Psoriasis is a common, long-term (chronic) disease with no cure. It can be painful, interfere with sleep and make it hard to concentrate.

CME PROGRAMME on "PHARMOCOGENETICS

Department of Physiology & Pharmacology Along with Genomic Research Centre and Medical Education Unit conducted a CME programme on "Pharmacogenetics" on 05. 11.15.

Topic: "Pharmacogenetics of Vision. Speaker: Prof. Velpandian, B.Pharm, M.Sc. PhD All India Institute of Medical Science (AIIMS), New Delhi. Topic "Pharmacogenetics of

Hypertension. Speaker Dr Farhana Rahman, MD, Sree Balaji Medical College Hospital, Chennai. Topic: "Gene Therapy current status" Speaker Dr V.Shivkumar, PhD. ModGore,

Bangalore. Pharmacogenomics is the study of how genes affect a person's response to drugs. This field combines pharmacology (the science of drugs) and genomics (the study of genes and their functions) to develop effective, safe medications that can be prescribed based on a person's genetic makeup.

CME ON "UPDATE IN CHILD AND FORENSIC PSYCHIATRY"

Dept. of Psychiatry and MEU In Association With Indian Psychiatric Society (Tamil Nadu Branch) CME ON "UPDATE IN CHILD AND FORENSIC PSYCHIATRY" on 20th

December, 2015. Topic: "Update In Child and Forensic Psychiatry" to be held at Hotel Savera. Forensic psychiatrists treat people with mental health problems who are in prison, a secure hospital or the wider community. It's a highly specialised role and you'll need a sophisticated understanding of the links between mental health and the law.
