

Focus

On Department of General Medicine

The Department of General Medicine is one of the largest Departments of Sree Balaji Medical College and Hospital. The physicians are committed to applying the latest medical knowledge and technology to meet the needs of the patients. Consists of outpatient and inpatient services. Outpatient services are available on all days, including holidays from 8 a.m. to 8 p.m. The team consists of highly qualified Professors (8), Associate Professors and Assistant Professors (19) and 41 Senior Resident.

General Medicine Department conducts 1 International conferences in year, 2 National Conferences in year and monthly once 2 CMEs apart from Symposium, Guest Lectures, Seminars. The department also conducts community camps where screening for various medical problems like Diabetes, Hypertension, Bronchial Asthma etc., takes place. The faculty also take part in the teaching service apart from the treating patients.

OUR STRENGTH

**Academic activities in Department of General Medicine for the month July 2022-
September 2022**

S. No	Date	Program	Topic	Speaker
1.	6/7/22	Journal Club	Restriction of IV fluids in ICU patients with septic shock	Dr Gautam JR
2	7/7/22	Recent updates	Modified MELD score	Dr Dinesh JR
3	11/7/22	Recent updates	Latest advances in medicine	Dr Devika JR
4	14/7/22	Journal Club	DPP4 inhibitors and Biliary disease in T2DM. A Meta-analysis review	Dr Vaishnavi JR
5	18/7/22	Image of the week	Schatzkis ring	Dr Rahul JR
6	20/7/22	Interesting Case of the week	Resistant Hypertension	Dr Keerthanaa JR
7	21/7/22	Image of the week	Pleural Calcification	Dr Gautam JR
8.	25/7/22	Topic of the week	Cushings Syndrome	Dr Sanjeeth JR
9.	27/7/22	Image of the week	Mediastinal mass on chest X ray	Dr Vijay Krishna JR
10	28/7/22	Interesting Case of the week	Parkinsonism and Parkinson plus syndrome	Dr Heshish
11	1/8/22	Image of the week	Retinal Vasculitis	Dr Sujana JR
12	3/8/22	Journal club	TIRZEPATIDE once weekly for the treatment of obesity	Dr Devika JR
13	4/8/22	Interesting Case of the week	Dengue with Scrub co infection with b/l 6h cranial nerve palsy	Dr Anuhya JR
14	8/8/22	ECG of the week	Precordial Masquerading bundle branch block	Dr Adhitya JR
15	10/8/22	Image of the week	Pyomyositis Vegetans	Dr Vaishnavi JR
16	11/8/22	Journal Club	Long term efficacy and safety of Renel denervation in the presence of anti-hypertensive drugs	Dr Gautam JR
17	22/8/22	ECG of the week	Acute pericarditis due to SLE	Dr Sujana JR
18	29/8/22	Interesting Case of the week	Refractory immune thrombocytopenia	Dr Heshish JR

19	5/9/22	Interesting Case of the week	Drug induced megaloblastic anemia	Dr Sujana JR
20.	7/9/22	ECG of the week	Hyperkalemia	Dr Gautam JR
21	8/9/22	Journal Club	Tolvaptan add on therapy and it's effects on efficacy parameters and outcomes in patients with heart failure	Dr Adhitya JR
22.	12/9/22	Image of the week	Oral telengectasias in systemic sclerosis	Dr Devika JR
23	21/9/22	Journal club	Folic acid effect on homocysteine in sortylline levels and glycemc control in T2DM patients	Dr Rangeela JR
24	22/9/22	Interesting Case of the week	DCLD	Dr Gautam JR
25	26/9/22	Image of the week	Usual interstitial pneumonia	Dr Madhuri JR

INCOM 2022 - International Hybrid Conference

The Department of General Medicine organized an International hybrid Conférence - INCOM 2022, on the topic “Infections in the Immunocompromised Host” on 27th August 2022 in T.R. Raman hall, Sree Balaji Medical College and Hospital. Eminent speakers from all over the world

were a part of this conference and gave all participants a platform to exchange their ideas and broaden their knowledge. It was informative and interactive and had active participation from all the faculty members, post graduates, CRRRI & under graduates from SBMCH as well as from other colleges. Speakers: 1) Dr. Poornima Ramanan, Md, Fellowships in Infectious

Diseases, Transplant Infectious Diseases and Clinical Microbiology, Assistant Professor of Medicine, Division of Infectious Diseases, Transplant Infectious Diseases Faculty, University of Colorado. Topic: Infections in Solid Organ and Hematopoietic Transplants - A Bird's Eye View 2) Dr. Ram Gopalkrishnan, Md, MRCP(UK), Ab

(Internal Med), American Certificate (Tropical Medicine), Fidsa, Fescmid, Senior Consultant, Institute of Infectious Diseases, Apollo Hospitals, Chennai. Topic: Infections in HIV Patients - State of Art In 2022. 3) Dr. Subramaniam Swaminathan, Md, DNB, American Board (Internal Medicine), American Board (Infectious Diseases), MBA (Healthcare Administration) Director, Infectious Diseases & Infection Control, Gleneagles Global Hospitals, Chennai & Bengaluru. Topic: Infections in Patients on Biologicals - How to Diagnose and Treat. 4) Dr. (Col.) Kompella Kiran Kumar Md, DNB, National Board Fellowship in Infectious Diseases (Apollo Hospital, Chennai)

Senior Advisor, Medicine and Infectious Diseases, Army Hospital Research & Referral, Delhi. Topic: Vaccines in Immunocompromised - Current Guidelines. 5) Dr. Vidyalakshmi Devarajan, DNB (Internal Medicine), Fellowship in Infectious Diseases, FNB - Infectious Diseases. Senior

Consultant, Department of Infectious Diseases, Dr. Rela Institute & Medical Centre, Chennai. Topic: Pneumonia in Immunocompromised Patients - Approach to Diagnosis and Management. 6) Dr. Vidya Krishna, MD, MRCPH, IAP PID Fellow (2015), Consultant, Paediatric Infectious Diseases, Apollo Hospitals, Chennai. Topic: Infections in Primary Immunodeficiency Syndrome - A Primer. Department of

general Medicine released a book on “Infectious diseases in immunocompromised hosts” A book on “infectious diseases in immunocompromised hosts” which was authored by the department of general medicine, was released during the international conference INCOM 2022 - 27/09/2022. The main aim of this book is to provide concise, accurate and up to date information of various infections affecting immunocompromised patients and it also enables the practitioners and readers to understand the concepts in infectious diseases.

Achievements of Post Graduates from Department of General Medicine

Dr Vignesh, Final year Post graduate from Department of General Medicine securing second place for poster in Cardio metabolic conference 2022 organized by International society for renal research. Dr Arvindraj, Final year Post Graduate from Department of General Medicine securing second prize in poster presentation in Global Cardio Diabetes Conclave Conference 2022.

Dr Anuhya Adusumilli, 1st year Post Graduate from Department of General Medicine securing 1st prize for poster presentation in INCOM 2022. Dr Ram Prasaanth, Final year Post Graduate from Department of General Medicine securing 2nd prize for poster presentation in INCOM 2022

CME on Insulin Initiation in patients uncontrolled on OHAs

CME was on the topic of “Insulin Initiation in patients with T2DM uncontrolled on OHAs” and speaker was Dr Jayashree Gopal (MD, Endocrinologist) from APOLLO hospital, Chennai, who gave us her insight on the topic. The talk was very informative and all Faculties and Post graduates actively participated in the session.

CME on Peptide in a pill

CME was on the topic “Peptide in a pill” and the speaker was Dr J S Kumar (MD, General Medicine), HOD of department of general medicine, SRM medical college and hospital and Dr. V Padma, professor of department of general medicine, SBMCH and the CME was informative and interactive.

CME on Rapidly progressive Glomerulonephritis

CME was on the topic “Rapidly progressive Glomerulonephritis” and speaker was Dr Karthikeyan M.D, D.M nephrology, from RELA hospital and it was an enlightening talk which was followed by an interactive question and answer session.

LIST OF PUBLICATIONS for the month July 2022 - September 2022

Name of Author	Title of the Paper	Name of the Journal
Dr. Sankar, Dr Umashankar, Dr Alex	Type 2DM presenting as Insulinoma	International journal of Biology, Pharmacology and Allied Sciences
Dr Padma, Dr Abhilash B Nair, Dr Sarath Bhaskar	Heinz body hemolytic Anemia	Journal of Applied Hematology
Dr Sankar, Dr Karthick Ramlingam, Dr Umashankar, Dr Alex	A rare case of Neurosarcoidosis	International journal of Biology, Pharmacology and Allied Sciences
Dr P Ram Prasaanth, Dr N N Anand, Dr Karthick Ramalinfam, Dr Anand Mohan	Confounding chaos, infectious catastrophe-Salmonella paratyphi and myocarditis	International journal of early childhood special education
Dr Mathisha Ebby Perin, Dr Suresh Kanna S, Dr Dinesh Babu	Pseudotumor cerebri presenting with 2 nd and 7 th nerve palsy	Medical sciences

National Doctor's Day

Every year, National Doctor's Day is celebrated on July 1 in the memory of Dr Bidhan Roy, the former Chief Minister of Bengal, who was known for his selfless service to humanity. The day, commemorated by Indian Medical Association (IMA), celebrates all doctors and healthcare workers who have been tirelessly serving people by risking their own lives.

Seminar on “Capnography – Principles and Uses”

The Department of Anaesthesiology and the Medical Education Unit conducting Seminar on “Capnography – principles and uses on 01.07.2022. Presenter: Dr. Meenakshi, Dr. Rajkumar First year PG, Department of Anaesthesiology. Capnography is based on the principle that CO₂ molecules absorb infrared radiation at specific wavelengths. The capnograph contains special photo detectors tuned to these wavelengths that enable the calculation of CO₂ levels in the breath sample.

Workshop on Nurturing Care - Early Childhood Development

Department of Paediatrics Conducted a workshop on Nurturing Care - Early Childhood Development on 03.007.2022. Dr. Somasundaram Dr. Sridevi Narayan, Chennai, the workshop was graced by eminent personalities who spoke in depth about various topics such as nurturing

care, nutrition and care-giving. There was a total number of 28 attendees who were benefitted from the above-mentioned broad areas of early child development. To grow and develop optimally, children need to receive nurturing care. This means that they enjoy adequate nutrition and good health, feel safe and secure, and have opportunities for learning starting from birth.

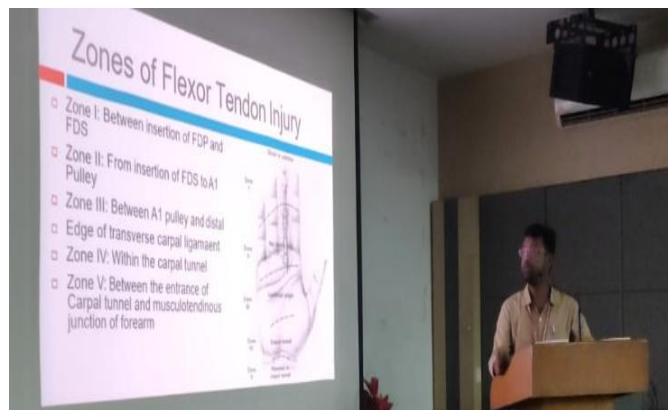

Seminar on Randomized Controlled Trials

Department of Community Medicine and MEU organized a Seminar on Randomized Controlled Trials on 04.07.2022. The randomised control trial (RCT) is a trial in which subjects are randomly assigned to one of two groups: one (the experimental group) receiving the intervention that is being tested.

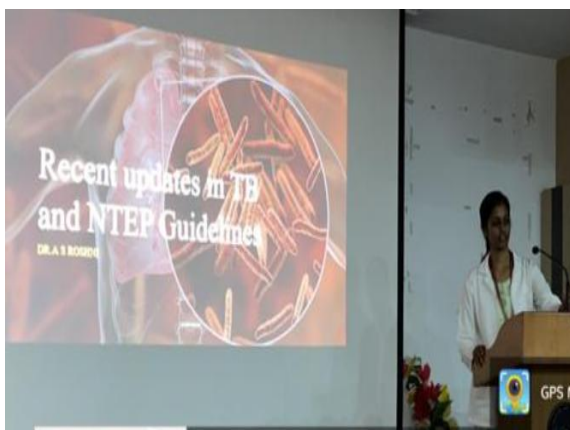

Seminar on Flexor Tendon Injury of Hand

Department of DVL and MEU organized a Seminar on Flexor Tendon Injury of Hand on 06.07.2022. Flexor tendon injuries are some of the more common injuries, but yet complex injuries managed by hand surgeons. The flexor tendon mechanism plays a key role.

Seminar on Recent Trends in TB

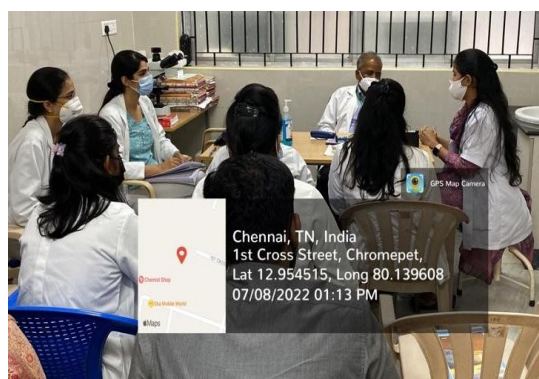

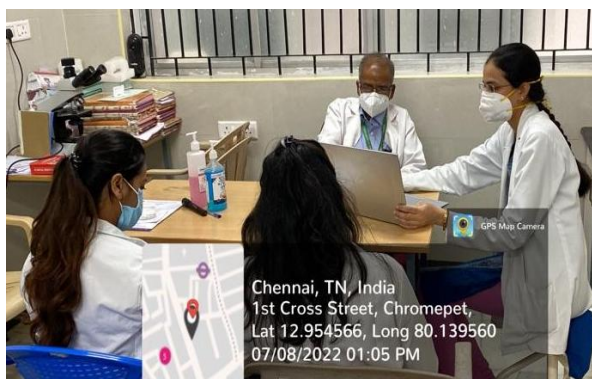

Department of Pharmacology and MEU organized a Seminar on Recent Trends in TB on 07.07.2022. Among communicable diseases, tuberculosis (TB) is the second leading cause of

death worldwide, killing nearly 2 million people each year. The most common treatment for active TB is isoniazid INH in combination with three other drugs—rifampin, pyrazinamide and ethambutol. You may begin to feel better only a few weeks after starting to take the drugs but treating TB takes much longer than other bacterial infections.

Symposium on Chemotherapy and Drug Reactions

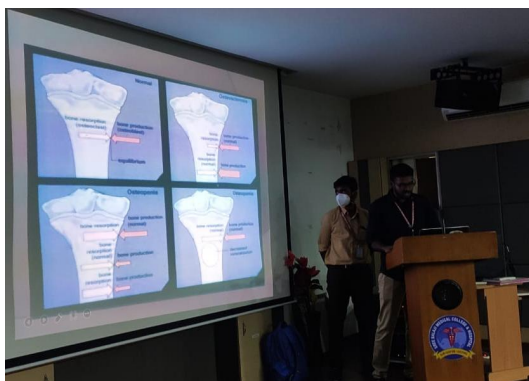

Department of DVL organized a Symposium on Chemotherapy and Drug Reactions on 08/07/2022. Presentation 1: Toxic Erythema of Chemotherapy by Dr. Sowmya N, In the presentation, definition of toxic erythema of chemotherapy, drugs associated, clinical variants, clinical features, along with pathophysiology, investigations with histopathology findings and management were discussed in detail. This was followed by discussion by Prof. K. Manoharan, Professor and HOD of DVL. Presentation 2: Pathogenesis of Drug Reactions by Dr. Mahadhi.

R. In the presentation, the various mechanisms involved in cutaneous drug reactions, the most commonly involved drugs, the clinical features of various drug reactions like DRESS, Steven Johnson syndrome, Toxic epidermal necrolysis, erythema multiforme, erythroderma and their management were discussed in detail. This was followed by discussion by Prof. K. Manoharan, Professor and HOD of DVL.

Symposium - Stem Designs in Total Hip Arthroplasty

Department of Orthopaedics organized a Symposium on Stem Designs in Total Hip Arthroplasty 11/07/2022. Presenters – Dr. Suresh Kumar J, Dr. Prashanth N, Dr. Jafer Sareef J, Dr. Suriya Kulothungan, Dr. Anirudh Reddy P M, Dr Aravindan M. In this system, the short femoral stems are classified into 4 types depending on the increasing area for loading on the stem. Type 1 are femoral neck only, type 2 are calcar loading, type 3 are calcar loading with lateral flare, and type 4 have shortened tapered conventional stems.

Health Education & Awareness Camp

Health Education & Awareness Program Conducted by Department of Community Medicine at RHTC, Padappai on 11/07/2022. The program is to create awareness about common disease like hypertension and diabetes mellitus. and personal hygiene, and help them lead a disease-free life. Awareness was created about the ill effects of hypertension and diabetes. Avoiding excess carbohydrates and processed sugar, regular exercise and splitting meals to small quantities can help in prevention. The importance of personal hygiene was strongly taught to the audience.

Workshop on “Surgical Suturing Techniques”

Department of OBG conducted a Workshop On “Surgical Suturing Techniques” on 13/07/2022. We Were Taught About What Are the Various Methods and The Techniques of How Suturing Is Done. About Selecting the Appropriate Wound Closure Materials. Knowledge Regarding Their Characteristics Is Crucial to Minimize Ischemia, Excess Wound Tension and Tissue Injury. For Proper Healing the Edge of Wound Must Be Everted by Each Stitch. Bites Should Be Taken Equal in Both Distance and Depth on Both Sides of Wound; That Is Its Entry and Exit Point

Should Be at Same Level In Tissues. We Learned About the Proper handling Technique of Needle, One Should Use the Curve of Needle to Pass the Suture Through Skin. Needle Should Be Inserted Perpendicular to Skin.

Workshop on “Episiotomy Repair”

Department of OBG conducted a Workshop On “Episiotomy Repair” on 14/07/2022. All Procedures Were Conducted Using Various Models and Videos on Techniques of Suturing. We Were Taught About: The Anatomy of Pelvic Floor, Perineum and Anal Sphincters. Diagnostic

and Sphincter Injuries Management of Complication of Vaginal Delivery. There Are 3 Layers Which Have to Repaired After Episiotomy Has Been Given. Vaginal Epithelium, The Muscles, Perineal Skin. Adequate Pain Relief Should Be Provided Before Suturing. We Were Highlighted About The: Risk Management, Issues, Role of Perineal Truma, Methods of Repair.

Workshop on “Basic Life Support”

Department of Anaesthesiology and School of Allied Health Sciences conducted a Workshop

On “Basic Life Support” on 15/07/2022. Speakers: Dr. Sumitha R, Professor Of ENT, Skill Lab, Dr. Raghuraman, Professor, Department of Anaesthesiology, Topic – Introduction of Skills Lab, Introduction To BLS. Basic life support (BLS) includes recognition of signs of sudden cardiac arrest (SCA), heart attack, stroke, and foreign-body airway obstruction (FBAO); cardiopulmonary resuscitation (CPR); and defibrillation with an automated external defibrillator (AED).

National Conference on Recent Trends in Research & Review

Department of Anatomy organized a National Conference on Recent Trends in Research & Review on 16/07/2022. Topic: Key steps in writing a Good systematic review- Speaker: D. Keerthi Singh, MBBS, MS Lecturer in Anatomy, University of West Indies - Cave Hill,

Barbados. Formulate a research question. Consider whether a systematic review is needed before starting your project. Develop research protocol. Conduct literature search. Select studies per protocol. Appraise studies per protocol. Extract data. Analyze results. Interpret results. Topic; Scope of Stem Cell Research- Speaker: Ajit N. Kumar M.Sc; Ph.D Director (Scientific) ACADICELL Innovations International Pvt. Ltd., Chennai , India. Cell is functional unit of life and Stem Cell functions as a unit for tissue growth, repair and regeneration. Processes of cellular physiological to pathological alteration and contribution of stem cells to tissue and organ development and rejuvenation is pathway for understanding of life. Topic: Decoding microRNA in Cancers- Speaker: Dr.C. Simondurairaj. M.Sc., Ph.D., Assistant Professor, School of Life Sciences, B.S. Abdur Rahman Crescent Institute of Science & Technology, Vandalur, Chennai.

The scientific sessions will guide the delegates in choosing apt research domains and experimental setup for their research studies. The conference will provide opportunities for the young researchers to share their research outcomes as well as knowledge with their fellow researchers and renowned scientists.

CME on “Overview on Orbit & Oculoplasty”

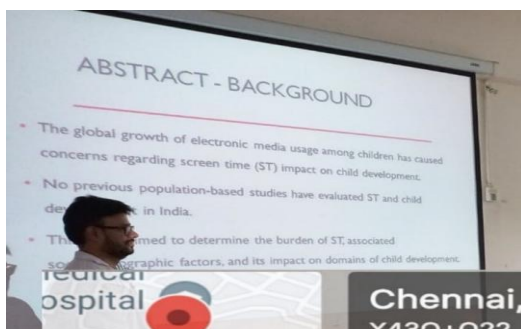

Department of Ophthalmology and MEU conducted CME on “Overview on Orbit &

on 16.07.2022. Speaker- Prof. M. Radhakrishnan, Retd Director RIOGOH. Oculoplasty and Orbit is a discipline in ophthalmology that deals with plastic and reconstructive surgery around the eyeball, including the eyelids, orbit and lacrimal system. Most of the oculoplastic conditions need surgical correction.

Symposium on “Tribal Health”

Department of Community Medicine organized symposium on “TRIBAL HEALTH” on 18.07.2022. Speaker- Dr.S.Thamarai Kannan, Dr. S. Karthik. The symposium went for about 2 hours where Dr. S.Thamarai kannan spoke about definition of tribe, distribution of tribal population across India, health status among tribal people. He comprehensively explained about various factors associated with Communicable and non-communicable disease among Tribal population. Following which Dr. Karthik spoke about mobile medical unit, Programs

provided to the tribal community, agencies for tribal health, new avenues and research in tribal health. At the end of the symposium Dr. Thamarai Kannan and Dr. Karthik asked questions to the students which were answered correctly and few students asked questions related the topic which was clarified by the speaker.

BALSURGE -2022

Department of General Surgery and MEU organized a National Conference on Surgery 18.07.2022. Session-1 Chair Persons: Prof. Dr. P. K. Baskaran, Dept. of General Surgery, SUMCH Prof. Dr. K. Kuberan, Dept of General Surgery, SBMCH. Topic; Recent trends in management of CA Stomach. Topic; Management of

Obstructive Jaundice-Current Concepts- Dr. R. Subhash, Consultant Gastro-Intestinal Surgeon, Regional Cancer Centre, Trivandrum, Kerala.

Dr. P. Darwin, Senior Consultant Department of General Surgery, Apollo Hospital Vanagram, Chennai, (Former) Prof. & HCD, Department of General Surgery, Stanley Medical College &

Hospital, Chennai. Session-II Chair Persons: Prof. Dr. R.G.Santhaseelan Dept. of General Surgery, SBMCH Prof. Dr. B.V. Sree Devi Dept. of General Surgery, SBMCH Topic; Updates in Management of renal cell carcinoma. Dr.Saravanan, Professor, Institute of Urology. Madras Medical College, Chennai. Topic; Basics in reconstruction of Leg defects-Dr.Selvan, Professor & HOD, Department of Plastic Surgery Chergalpet Medical College & Hospital.

Health Education, Awareness & Free Medical Camp

Health Education, Awareness & Free Medical Camp Program Conducted by Department of Community Medicine at Kamatchi Nagar, Third Street, Anakaputhur on 19-07-2022. Reducing the major risk factors for noncommunicable diseases (NCDs) – tobacco use, physical inactivity, unhealthy diet and the harmful use of alcohol – is the focus of WHO's work to prevent deaths

from NCDs. NCDs – primarily heart and lung diseases, cancers and diabetes – are the world's largest killers, with an estimated 38 million deaths annually. Of these deaths, 16 million are

premature (under 70 years of age). If we reduce the global impact of risk factors, we can go a long way to reducing the number of deaths worldwide. Prevention of NCDs is a growing issue: the burden of NCDs falls mainly on developing countries, where 82% of premature deaths from these diseases occur. Tackling the risk factors will therefore not only save lives; it will also provide a huge boost for the economic development of countries.

VEBDICON 2022

Department of Community Medicine and MEU organized a National Hybrid Conference on Vector-Borne Disease– 2022 Theme: “Holistic Action Towards Vector-Borne Diseases” on

22.07.2022 & 23.07.2022. SESSION 1: Speaker- Mr. Sridharan Subramanian Retd.Chief Entomologist, Dept. of Public Health & Preventive Medicine, Govt. of Tamil Nadu Moderator- Dr Shanthi Edward Professor, Dept. of Community Medicine, TOPIC- MALARIA-PAST, PRESENT AND FUTURE. The speaker spoke about the prevalence of malaria in the world and India. He described the life cycle of the malarial parasite, the symptoms and signs of malaria, the challenges faced during elimination of malaria and how we can possibly overcome it. He also

THE WAYANAD OUTBREAK, 2015

- 28 year old male forest guard
- 18 cases involved in fire line work
- From Jan to July 2015 184 cases and 9 deaths
- Peak in February (69 cases)
- 80% cases were tribals

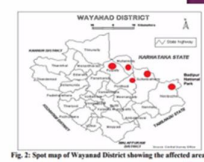

Fig. 2. Spot map of Wayanad District showing the affected areas

spoke of the past, present and future of anti-malarial medicines and their effectiveness. After discussing the conflicting views on the relations between malaria and socio-economic development and the desirable integration of malaria control into sustainable development, the speaker ended with some considerations on the perspectives of malaria control, just before the launching of the current Roll Back Malaria initiative by WHO. Session 2: Speaker-Dr P Vadivelan, Director Of Public Health And Preventive Medicine Officer On Special Duty, Tamil

Nadu. Topic – Dengue Control And Surveillance In Tamil Nadu. Moderator-Dr T P Jayanthi, Professor Dept.Of Community Medicine, SBMCH. Topic – Dengue Control and Surveillance In Tamil Nadu. Session 3: Speaker- Dr Mahamood Shariff, Deputy Director- NVBDCP Directorate of Health and Family Welfare Services, Arogya Soudha, Bengaluru, Government of Karnataka. TOPIC-Surveillance-An Effective Approach to Curb Vector Borne Diseases. Session 4:

Speaker-Dr Jayakrishnan Thavody Associate Professor, Dept Of Community Medicine, Govt.Medical College Manjeri, Kerala. Session 5: Speaker- Dr S Suresh Kanna Associate Professor, Dept Of General Medicine, SBMCH. Topic-Chikungunya -A Hidden Iceberg of Morbidity. Session 6: Speaker-Dr Dinesh Raja J Scientist B (Medical) & Head, Epidemiology & Operations Research, ICMR-VCRC, Puducherry Topic-Current Scenario on Lymphatic Filariasis. Session 7: Speaker- Dr Suthanthira Kannan S Assistant Professor, ESICMC & PGIMSR, KK Nagar, Chennai. Topic-Harness Innovation to Reduce Japanese Encephalitis.

Health Education, Awareness & Free Medical Camp

Health Education, Awareness & Free Medical Camp Program Conducted by Department of Community Medicine at UHTC Anakaputhur on 25-07-2022. Dengue in human is often

inapparent and leads to a wide range of clinical manifestations, from mild fever to potentially fatal dengue shock syndrome. Dengue should be suspected when a high fever is accompanied by two of the following symptoms: severe headache, pain behind the eyes, muscle and joint pains,

nausea, vomiting, swollen glands, or rash. Symptoms usually last for 2–7 days, after an incubation period of 4–10 days after the bite from an infected mosquito. Awareness regarding dengue disease, dengue spreading mosquito to the general people. Doctors gave awareness about sign and symptoms, danger signs and complications.

Workshop on ‘A Silent Killer- OSA’

Dept. of ENT conducted a workshop ‘A Silent Killer OSA’ along with the collaboration with pulmonology department on 27.07. 2022. The speakers Dr. Sabarinath MD, Assistant Professor of Department of Pulmonology and Dr .M.K.Rajasekar, HOD and professor of ENT.

Medical Camp

Medical Camp Conducted by Department of Community Medicine At RHTC, Padappai on 27.07.2022 at Sethupattu, Somangalam. All the participants underwent general clinical examination. Complaints regarding their health issues were addressed. Free medicines were dispensed. Advice regarding their respective health status was given. Out of 81 participants, 8

were sent to Hospital for further evaluation and management. The participants were screened for diabetes by recording CBG and hypertension. All the participants were advised for regular health check-up and diabetes patients were also advised for regular follow-up. All the participants who were found to have diabetes and hypertension was given appropriate treatment and dietary advice with respect to diabetes and hypertension.

School Health Education & Awareness Camp

School Health Education & Awareness Camp Conducted by Department of Community Medicine, UHTC Anapathur on 27-7-22 at Panchayat Union Primary School. The health

awareness on self-hygiene was given to the school children at Panchayat union primary school, Anapathur. All the participants were given advice with respect to hand hygiene, foot care (avoid bare foot walking) and deworming. School children were explained regarding the importance of wearing masks, maintaining social distance in the public places and measures to taken during the pandemic situation.

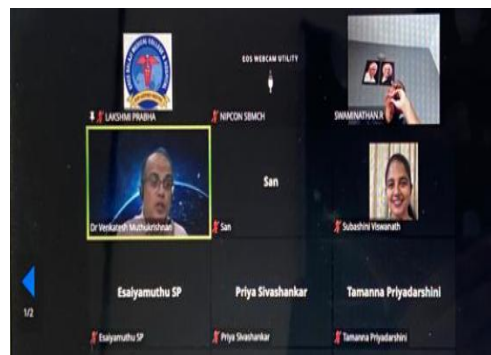

Guest Lecture- Unraveling the Spaces of Neck- Imaging Approach

Department of Radiology and MEU organized a Guest Lecture- Unraveling the Spaces of Neck- Imaging Approach on 28.07.2022. Guest Speaker, Dr. Thiru A P Sudarshan, DMRD, FRCR, EBHNR, Consultant Radiologist & Clinical Lead, Ninewells Hospital & Medical School, Dundee, United Kingdom.

Hybrid - Guest Lecture

Department of Psychiatry Conducted a Hybrid - Guest Lecture on “is Dr. Google An Adjunct or An Alternative to Dr. Hippocrates– How Digital Technology Is Transforming Mental Healthcare” on 30.07.2022. Speaker: DR. Venkatesh Muthukrishnan, MRC (Psych) Consultant in Old Age Psychiatry, Tees, ESK & Wear Valley Foundation, NHS trust.

CME on Common Breastfeeding Challenges

Department of OBG and MEU organized CME on Common Breastfeeding Challenges on 1th week of August 2022. The theme for World Breastfeeding Week (WBW 2022) is Step up for Breastfeeding - Educate and Support. It will focus on strengthening the capacity of actors that have to protect, promote and support breastfeeding across different levels of society.

Breastfeeding Awareness Camp

Department of Community Medicine organized an Awareness Campaign in RHTC at Navalur, Padappai on 1/08/2022, Anakaputhur on 5/08/2022. World breast feeding week (WBW) is

celebrated every year from 1st August to 7th August. The theme for WBW 2022 is Step up for breastfeeding- educate and support. This year's theme aims to focus on strengthening the capacity of actors that have to protect, promote and support breastfeeding across different levels of the society. These actors make up the warm chain of support for breastfeeding. Target audiences including governments, health systems, workplaces and communities will be informed, educated and empowered to strengthen their capacity to provide and sustain breastfeeding-friendly environments for families in the post pandemic world. Breastfeeding is

key to sustainable development strategies post-pandemic, as it improves nutrition, ensures food security and reduces inequalities between and within countries. The event started with an introductory talk to world breastfeeding awareness week. Faculties from the Department of Community Medicine attended this event including the HOD and Professor Dr.R.Umadevi, Professor Dr.Shanthi Edward, Assitant Professors Dr.KrishnaPrashanth and Dr.Hariharan. A

special speech was delivered by Dr.Hariharan on the importance on breastfeeding and the global scenario of the same. The postgraduates (Dr.Siddharthan.A, Dr Mohamed Shuaib Sait, Dr.Sushmita.G and Dr.Monica Albert) then did a poster presentation on the basics of breastfeeding, debunking cultural myths and beliefs and gave a brief introduction to the role of

various actors in supporting the mother-baby dyad. The undergraduates then enacted a beautiful skit on the long-term effects of not exclusively breastfeeding a baby. This highlighted the cultural difficulties faced by Indian women and the role that family and society play. The session was concluded with a speech by Professor Dr.Shanthi Edward. The event was concluded by distribution of gifts to the participants by our HOD & Professor Dr. R Umadevi.

International Conference on Foot and Ankle

Department of Orthopaedics organized an International Conference on Foot and Ankle on 5/8/2022. Speakers: Dr. Arun Ramanathan, Dr. Parthiban, Dr. Raja, Dr. Sundararajan, Dr. Ajoy, Dr. Satish Nesari.

CME on Essentials of Rational Drug Therapy

Department of Pharmacology and MEU organized CME on Essentials of Rational Drug Therapy on 05-08-2022. Speaker: Prof. Priestly Vivekkumar. MD (Pharmacology), Head of Faculty at Panimalar Medical College Hospital and Research Institute, Chennai. Essential medicines are the drugs that have the best balance of quality, safety etc. Essential medicines are those that satisfy the priority health care needs of the population. They are selected with due regard to public health relevance, evidence on efficacy and safety, and comparative cost-effectiveness.

CME on " Gutsy Gut Bugs"

Department of Microbiology and MEU organized CME " Gutsy Gut Bugs" on 05-08-2022. Speaker: Dr. Manonmoney. J, Associate Professor, SRM, Medical College Hospital and Research Institute, Chennai. As the body has improved nutrient absorption, we recommend taking a probiotic too, to supplement the good bacteria in the gut. Gutsy is a food, not a medication, therefore perfectly safe to consume for the general population.

Symposium - Thoracolumbar Fractures TLICS

Department of Orthopaedics organized a Symposium on Thoracolumbar fractures TLICS classification and management of each types on 08.08.2022. Presenters –Dr. Pratik Mahapatra, Dr. Raahul R C, Dr. Navaneethakrishnan R, Dr. Rajlaxmi Reddy, Dr. Bageshree A, Dr. Syed. A thoracolumbar fracture means that a bone is broken in the thoracic (middle) or lumbar (lower back) region of the spine, nearly 1/3 of these injuries are associated with a neurologic injury or paraplegia.

Independence Day

As India celebrates its 75th Independence Day on August 15, 2022, preparations are on in full swing everywhere. Institutions have the biggest celebration on Independence Day and students participate in all the programs with zeal and enthusiasm.

Workshop on “Temporal bone dissection “

Department of ENT organized a workshop on “Temporal bone dissection” on 16/8/2022. The speakers for the following event was Dr. Valli, HOD and professor of ENT, Sri Sathya Sai Medical College, Dr. Ramani Raj, Professor and HOD of Dept of ENT, ESIC Medical College, Dr. M. K. Rajasekar, HOD and Professor of ENT, SBMCH. There were around 70 plus participants who made the workshop successful.

Symposium on Phacoemulsification

Department of Ophthalmology organized a Symposium on Phacoemulsification on 18.08.2022. Phacoemulsification is a modern-day cataract surgery that employs ultrasound energy to emulsify the nucleus, vacuum to catch the nuclear material, and irrigation and aspiration for cortex and viscoelastic removal. A typical phaco machine consists of a handpiece, foot pedal, irrigation, and aspiration system.

Medical Screening Camp

Department of Community Medicine organized a Medical Screening Camp Padappai on 18.08.2022. Screening for diabetes and hypertension were done. Diabetes was screened by CBG.

BP was recorded using BP apparatus, with height and weight-BMI calculated and advised for regular follow up. Dietary advice was given for diabetes & hypertensive patients. Awareness on personal hygiene, COVID-19, control of Diabetes and Hypertension.

Workshop on “Normally Functioning Hip “

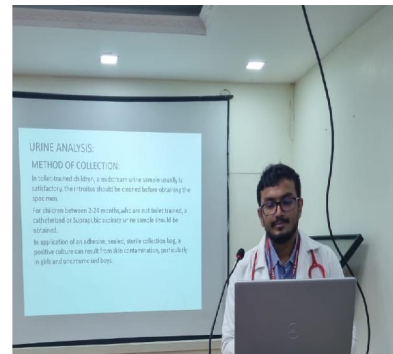

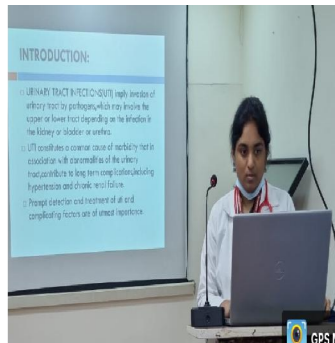

Department of Orthopaedics organized a workshop on “The Secrets of Restoring a Normally Functioning Hip on 20/8/2022. Speaker: Dr. Sanjay Agarwala, Head of Orthopaedics and Traumatology, P.D. Hinduja National Hospital, Mumbai.

Symposium on Urinary Tract Infections

Department of Paediatrics conducted a symposium on Urinary Tract Infections on 20.18.2022.

Speakers: Dr. Saraladevi, Dr. Harish, Dr. Shri Lakshmi, Dr. Shyamnith, Topics: Introduction to Urinary Tract Infection, Pathogenesis of Urinary Tract Infection, Symptoms of Urinary Tract Infection, Investigations and management of Urinary Tract Infection. An infection in any part of

the urinary system, the kidneys, bladder or urethra. Urinary tract infections are more common in women. They usually occur in the bladder or urethra, but more serious infections involve the kidney. A bladder infection may cause pelvic pain, increased urge to urinate, pain with urination and blood in the urine. A kidney infection may cause back pain, nausea, vomiting and fever. Common treatment is with antibiotics.

Medical Screening Camp

Department of Community Medicine organized a Medical Screening Camp Sethupattu Village, Kanchipuram on 24.08.2022. All the participants underwent clinical examination, advice regarding their health status was given. Out of 55 participants 12 were sent to Hospital for further evaluation. Screening for diabetes and hypertension were done. Diabetes was screened by CBG and advised respectively. BP was recorded using BP apparatus, height and weight-BMI calculated and advised for regular follow up. Dietary advice was given for diabetes & hypertensive patients. Awareness on personal hygiene, COVID-19, Diabetes and Hypertension,

Awareness created among public regarding personal hygiene, Health education on hand hygiene, washing, social distancing, wearing mask, avoid overcrowding, using sanitizers, Menstrual hygiene awareness created among women. Advised on DASH patients, low salt diet, diabetic diet, regular walking for 45 mins/day, avoid junk foods and oil rich foods. Food high in fiber content were discussed about and public urged to consume such food for better health.

Guest Lecture- Insulin Initiation in Patients

Department of General Medicine and MEU organized CME " on Insulin Initiation in Patients Uncontrolled on OADS-A Smart Solution In Tune with Indian. Reality 24-08-2022. Speaker: Dr Jayashree Gopal Endocrinologist Apollo Medical Centre in Chennai, Seethapathy Clinic & Hospital.

Interdepartmental symposium on Delusional Parasitosis

Department of DVL and Psychiatry Interdepartmental symposium on Delusional Parasitosis on (26/08/2022). Dr. Richa Jotwani (Junior Resident, Dept. of D.V.L.) was the first presenter who talked about the clinical features and presentation of delusional parasitosis. Various synonyms, and the classical “Matchbox sign” were discussed. Other organic and psychiatric disorders that lead to secondary delusional parasitosis was given importance. Furthermore, Dr. Aanchal Miglani (Junior Resident, Dept. of Psychiatry) talked about management of delusional parasitosis. 1st generation anti-psychotics like Pimozide was elaborated on. Its side effects were

highlighted and the use of newer agents like second generation anti-psychotics like Risperidone, Olanzapine were discussed in detail. The importance of forming a rapport with the patient, and proper counselling regarding the disease course should be given. The talk ended with a conclusive overview by Prof. Dr. K. Manoharan (HOD of Dept of DVL) and Dr. Priya (Associate Professor of Dept. of Psychiatry) on the clinical and treatment aspects of delusional parasitosis.

CME on Male Infertility

Department of Anatomy and MEU organized CME " on Male Infertility on 28.08.2022. Speaker: Dr. Kiruthiga Devi. R.S, Consultant OBG, Babu Male Infertility Hospital, Chennai. Male infertility can be caused by low sperm production, abnormal sperm function or blockages that prevent the delivery of sperm. Treatment depends on what's causing infertility. Many problems can be fixed with drugs or surgery.

Guest Lecture on Secondaries Neck

Department of General Surgery & Medical Education Unit conducted a Guest Lecture on Secondaries Neck on 23.08.2022. Speaker: Dr. Sujay Susikar, Associate Professor, Centre for oncology, Govt. Royapettah Hospital, Chennai

Madras Orthopaedics Society Meet

Department of Orthopaedics & Madras Orthopaedics Society conducted a Meeting on Interesting Case Discussion in Orthopaedics 01.09.2022. What are the orthopedic cases?

Common Orthopedic Disorders, Osteoarthritis. Rheumatoid Arthritis. Treatment for Arthritis. Cubital Tunnel Syndrome. Lateral Epicondylitis (Tennis Elbow) Medial Epicondylitis (Golfer's or Baseball Elbow) Carpal Tunnel Syndrome. Ligament Injuries to the Knee. Torn Meniscus.

Gross Discussion - Breast Grossing

Department of Pathology & Medical Education Unit conducted a Gross Discussion - Breast Grossing on 01.09.2022. Specimen orientation and education: Seek guidance from a PA at triage and grossing. Before the specimen is manipulated. Present and discuss a course of action for overall specimen assessment, gross description, and block submission. One of the most important aspects of grossing breast specimens is to correlate what you see to what was seen radiographically. Prior to grossing, always check (1) radiology reports and (2) Epic records.

Seminar on Recent Updates in the Therapeutic Management of Autoimmune Disorders

Department of pharmacology & Medical Education Unit conducted Seminar on Recent Updates in the Therapeutic Management of Autoimmune Disorders on 05.09.2022. Anti-inflammatory drugs – to reduce inflammation and pain. corticosteroids – to reduce inflammation. They are sometimes used to treat an acute flare of symptoms.

BALANCE - 2022

Department of Anaesthesiology, Critical Care and Pain Medicine & Medical Education Unit organized an International Conference & Workshop "Make It Simple" on 10 September 2022.

Session 1 "Alleviate Acute Pain"-Approach & Application- Prof. Dr. G.K.Kumar, M.D., D.A.,FIPP. FIPM. Government Omandurar Medical College. Session 2: Anaesthetic Considerations For "Awake Craniotomy- Dr. Arulvelan, M.D., DNB, DM (Neuro. Anaesthesiology) Apollo Proton, Chennai. Session 3: Chronic Pain Myth or Real- Dr. Ravi, MD, FEARCS Associate FRCA, Associate FFFPMRCA Consultant in Anthesis and Chronic pain management. Session 4: "Enhanced Shock Management" By Focused Cardiac Echo &

Ultrasound - Dr. R. Senthil Kumar, M.D., IDCCM, FICCM, EDIC Senior Consultant, Department of CCM, Apollo Hospitals, Chennai.

BALNUTRICON 2022

Department of Paediatrics & Medical Education Unit organized a National Conference on “Pediatric Nutrition the Need of The Hour” Let's Celebrate World of Flavors on 12.09.2022. Topics: Malnutrition A silent pandemic-Dr. Kristin Indhumathi, Senior Consultant

Neonatologist and Pediatrician SUT Hospital, Trivandrum, Kerala. Topics: Adolescent Nutrition-nation's pride, Dr. Somasekar R Professor Department of Paediatrics. Topics: JUNCS-

It's Time to Act- Dr. Mallikarjuna H.B Professor of Paediatrics, Oxford Medical college and Hospital, Bengaluru. Topics: Nutrition in critically ill child- Dr. Srinivasan S Medics Registrar, ICH & HC. State NICU Coordinator (Child Health), NRHM. Sugar and Salt in Nutrition-Dr. Dhakshayani MD Associate Professor of Pediatrics, Nagapattinam Medical College and Hospital.

Magistrate Lecture -International Speaker

Department of Microbiology & Medical Education unit Organized Magistrate lecture by International Speaker on 21.09.2022. Topic: Botulinum A - and Tetanus toxins: are they

potential biological Weapons- Prof. Govindan Dayanithi, PhD. (Research director in CNRS FRANCE MMDN, University Montpellier, EPHE INSERM U1198-FRANCE) & Visiting professor, Research and development wing, SBMCH Chennai India.

VOICECON 2022; National Conference on Phonosurgery (Hand on Workshop)

Department of ENT & Medical Education Unit organized a National Conference & Workshop on Phonosurgery 27.09.2022. Injection Laryngoplasty And Hands on Workshop on Injection Laryngoplasty- Dr. Ragitha Binu Krishnan, Consultant, Department of Laryngology, KIMS Hospital, Trivandrum. Thyroplasty and Hands on Workshop on Thyroplasty- Prof. Dr. Satish Nair, Professor, Senior Consultant, Academic Head (ENT), ENT and Head and Neck Oncology Apollo Hospitals, Bannerghatta Road, Bangalore. Management of Bilateral abductor paralysis- Prof. Dr. M.K. Rajasekar.

Magistrate Lecture -International Speaker

Department of Physiology & Medical Education Unit Organized Magistrate lecture by International Speaker Theme: “Physiology and Pathophysiology of Astroglia With Some Emphasis on Neurodegenerative Diseases” on 28.09.2022.

L-PATH CON 2022

Department of Pathology & Medical Education Unit organized a National Conference on “Current Trends In Extranodal Lymphoma” 28.09.2022. Gastrointestinal Lymphomas- Dr. Usha

Kini, Professor of Pathology, St John's Medical College. Utility of flow cytometry and ancillary studies in Extranodal lymphomas- Dr. Prabhu Mannivanan Associate Professor, Pathology

JIPMER. T Cell Lymphomas- DR. Asma Bibi Consultant, Hematology and Clinical Pathology, Incharge Flow Cytometry unit. Rela Institute and Medical Centre.

International Conference -Edit Invasive to Preinvasive Cancer Cervix

Department of Obstetrics and Gynaecology and Medical Education Unit organized an International Conference on “Edit Invasive to Preinvasive Cancer Cervix” on 30.09.2022.

International speakers: Dr. Jullien Brady Consultant OBG, Lead Clinician for Gynecological

Oncology and Colposcopy Luton And Dunstable Hospital United Kingdom. Dr. Govindan Dayanithi. CNRS Research Director & Professor Molecular Mechanisms in Neurodegenerative, Diseases Laboratory University of Montpellier, France. National Speakers: Dr Rashmi Raveendran, MD Pathology Assistant Professor Vels, Medical College And Hospital Tiruvallur, Dr. Annith Kumar V M, MS OG, MRCOG, Fellowship In

Reproductive Medicine Consultant OBG, Sri Kumaran A Specialty Hospital And Fertility Centre Chennai, Dr. Balajitk Md Pediatrics Pediatric Oncology & BMT Cancer Institute, Chennai. Dr Vijayashantit MS CBGFIGO MAS Sri Ramachandra Medical College and Hospital, Chennai.

Extension and Outreach Activities

Nutrition Week Awareness Camp in Padappai

Nutritional Week Awareness Camp Conducted by Department of Community Medicine at RHTC Padappai on 05-09-2022.

Free Medical Camp in Padappai

Free Medical Camp Conducted - Department of Community Medicine RHTC Padappai on 09-09-2022 at Sirumathur

Free Medical Camp in Padappai

Free Medical Camp Conducted -Department of Community Medicine RHTC Padappai on 21-09-2022 at Karanithangal

Health Screening Camp at Anakaputhur

Free Health Screening Camp Conducted -Department of Community Medicine UHTC Anakaputhur on 23-09-2022 At Balaji Garments, Pillayar Koil Street, Anakaputhur.
